STATINTL

Dear Dan:

Enclosed are copies of the shipping documents regarding our equipment which we delivered to [redacted] has been very helpful to us and, as you probably know by now, set up a series of briefings and demonstrations which we gave to all interested parties at Wright Field. The most important demonstration was one which he arranged at McDonnell. The results of the demonstration were that we have been asked to prepare a proposal to adapt our

STATINTL

The information flow from McDonnell is pretty slow. They have been promising us drawings for the last three weeks and haven't come through yet, despite our numerous telephone calls. We are anxious to follow through with our work as rapidly as possible and not have the program lose any impetus. I will be in Washington within the next two weeks and would like to have an opportunity to talk to you about it.

By the way, you may be aware of the fact that TARC at Shaw AFB phoned us last week and said they were flying into Wright Field to pick up our equipment and urgently needed our assistance in running a series of flight tests for the SPRIKE Command this week. We accomodated them by sending two fellows to Shaw last Thursday. This brings you up to date.

Best regards.

STATINTL

Sincerely,

Encl.
